Web Design.
your online presence

WWW.CRIHOST.COM

WE WILL HELP GROW YOUR BUSINESS

“ The best way to increase rankings in search engine and for the least amount of effort is to choose the domain name that inform visitors about your business.

To make website available to large number of visitors on the Internet, you need to host website files to a server. Server is a physical computer that runs without any interruption so that website available all the time on the Internet. Web Hosting is responsible for keeping the server up and running, protecting it from malicious attacks, and transferring content such as text, images, files, etc. — from the server to visitors' browsers. Web Hosting is an online service that enables you to publish your website on the Internet. When you sign up for a web hosting service, you basically rent some space on a physical server where you can store all the files and data necessary for your website to work properly.

WEBSITE REQUEST FOR PROPOSAL

We will build a website according to the description laid out in the proposal. Any additional features, pages or other changes to project requirements may affect the timeline and costs, and will require a seperate change order document.

Description

Describe the project you wish to undertake. Is it a new website, a redesign, or an update.

Objective

Indicate whether website relies on a database to display information or will be static.

Cost Estimates

Provide budget range so that we can scale proposal accurately.

Planning

Indicate whether organization is ready to start work with us, or you have to raise money to begin the project.

WEB HOSTING
YOU NEED THIS TO GET YOUR WEBSITE STARTED

DOMAIN NAME

Besides signing up for a web hosting service, you also need to purchase a domain name. Domain name is a way to identify, and how people refer to a website and find it on the Internet. Domain name acts as an address of your website.

TERMS OF SERVICE

Client understands and agrees that we create and host website solely in accordance with the information provided by the client. It is client's responsibility that the content provided is free from third-party copyright and trademark protection. All content must be submitted via email and may not be accepted submitted via fax or paper copies.

If the client does not supply with complete text, graphic content and other requested materials within 20 days of contract signing, the contract becomes void and all deposits paid by the client are forfeited. If we are unable to communicate with the client for duration of at-least 30 days during the process, the project will be cancelled.

Client agrees that there are no refunds and as consideration for providing the hosting support and continuity of services, client accept to pay recurring yearly fee based on the plan selected.

HOSTING TERMS

Client agrees that spamming; sending unsolicited emails from servers is strictly prohibited and will qualify for immediate deactivation. Client cannot send more than the specified number of emails in an hour irrespective of the size of the mailing lists.

Data Usage/Transfer: Websites that have large number of databases on the server will spike the memory instantly. Moreover, such websites will be slower in performance when compared to other due to the restriction and resource sharing. If website exceeds the monthly bandwidth limit, then the account shall be suspended without notice.

WHO WE ARE

Kcrom Technologies, full stack web developers and hosting service providers, successfully established in the market since 2012 and developed a vision for a website that will greatly improve overall branding, expand digital marketing efforts and increase the volume of leads generation for sales team.
